TESTIMONIAL : Simon Thomas - Toucan Internet

At Pearse House we are delighted that we chose Simon Thomas to redesign our Website.

WHY ?

No only has he produced a wonderful eyecatching, attractive and user friendly website, but throughout he has demonstrated a professionalism and a passionate love of his work.

He is extremely knowledgeable, thoroughly efficient and extremely patient (especially with client like us).

From the outset Simon gave freely of his time to gather information, ask appropriate questions and gain a full appreciation of our business before embarking on producing the ideal site for us.

Throughout the website construction he remained in constant contact with us and kept us up-to-date with changes and suggestions. As a perfectionist he wanted to ensure that our site was absolutely right for our business, and to this end he has succeeded with flying colours.

I can highly recommend Simon to you and whole heartedly attest that you will not find a website designer any better.

Simon and Toucan Internet are second to none!

DANNY DOYLE
GENERAL MANAGER
